Preschooler Group Classes

Preschoolers learn best through interactive games, hands-on discovery, and opportunities for creative self-expression. Our preschool piano classes have been carefully crafted to give your budding musicians the fun musical experience they've been begging for. An exciting, encouraging environment sets the stage for creative learning and happy discovery—exactly what your inquisitive little one needs when it comes to first experiences with the piano. This developmentally appropriate piano class is a great first step, laying a strong foundation for a successful transition later on into more advanced study. Class sizes are small, with no more than 4-8 students. Each weekly class is 35 minutes long. While students are enrolled in the Preschool Class, there is no keyboard or piano required for home use, though it is recommended in the long term.

Tuition: \$85/month

Group Lessons

Group Lessons are taught in our state-of-the-art Piano Lab Classroom (usually only found in college music departments) where all students have their own digital piano. These 50-minute classes help students to truly enjoy the process of learning to read music and understand rhythms in a more interactive setting (often easier and quicker learning of these fundamentals occur). They also aid in oft-ignored ensemble skills (which involve deeper listening and focus than just playing by yourself all the time), creating the next generation of sought-after collaborative pianists—and simply put, loads of fun and camaraderie for the older generation!

Tuition: \$95/month

Duet Lessons

These lessons are another package uniquely arranged at Piano Lab. We hand-pick students who we believe would be well-matched (in age, level, temperament, learning styles, repertoire interests, etc.) Each student gets a total of 45 min. (15 minutes of private lesson time & 30 minutes of duo-lesson time).

Tuition: \$120/month

Private Lessons

Private instruction assists in the continued development of the student's individual, maturing musical voice. As overall technique improves (with more scales, chords, and arpeggios, to use the jargon) and a student starts to really build a wider variety of solo repertoire, private lessons will be especially helpful.

Tuition for PRIVATE Lessons: \$125/month (30-min.)

\$180/month (45/min.)

\$240/month (60-min.)
